

THE
MARINE
SPA

About our spa

Our hydrotherapy pools provide relaxing, tranquil and soothing water therapies. The water has been treated to replicate sea water, which is rich in minerals and sea salts, and is then heated to body temperature. Whether you are walking through the water corridor to stand beneath the swan-neck fountains, or sitting in the spa pool, the water jets beneath the surface will massage your body and stimulate circulation.

Our pools are enhanced with mineral salts, which are hugely beneficial to the skin thanks to the high magnesium content, calcium, zinc and potassium. This can help plump up skin because it attracts and binds water, and improves hydration by strengthening the barrier function of the skin. Salts in the water allow a two-way process to occur, helping to detoxify the body and allowing it to absorb the minerals it needs to regenerate.

Our 15 meter exercise swimming pool offers stunning views over the bay and a chance to relax and unwind.

The dry heat sauna will help to rejuvenate the skin, relax your muscles, ease joint pain, improve blood flow and detoxify your body.

Our gym is fully equipped with fitness machines and you can enjoy inspirational views over the bay whilst you exercise. A selection of classes can be enjoyed in our dance studio, including spin, pilates and yoga.

Within the Marine Spa we have 10 treatment rooms and a deep relaxation lounge.

With all our 50 minute or longer treatments and our spa packages, we offer use of the Marine spa facilities complimentary, including your towel and robe.

Enjoy your stay at The Marine Spa.
